KEY CAPABILITIES

Advocacy

Extensive experience in presenting orally and in writing to policy makers and regulatory bodies, including Ministers, Shadow Ministers and their staff, senior bureaucrats, parliamentary enquiries, the ACCC and the Productivity Commission.

Policy Analysis

Experience in analysing public policy from political and economic perspectives, and its impact on commercial enterprises and consumers. Able to provide actionable advice for enterprises on public policy agendas to pursue, or how to influence public policy issues generated elsewhere.

Stakeholder Management

Extensive experience in influencing enterprise stakeholders, especially policy makers, consumer groups, industry associations and media, in their view of an enterprise and the issues the enterprise considers important. Able to undertake stakeholder analysis to determine existing perceptions, stakeholder interests and stakeholder influence.

Compliance

Experience in designing and implementing compliance programs including effective and efficient complaints handling processes.

Spokesperson

Experience as a media spokesperson to press conferences, individually with print media and with radio and television journalists. Able to analyse issues and prepare key messages.

Facilitation

Extensive experience in working with and as part of groups seeking solutions to complex problems with multiple competing participant interests.
